

AREVIR-Meeting Verbundprojekt HIV-HEP-MASTER EuResist

When: 28. – 29. April 2023 (9:00 am – 6:00 pm)

Where: Stadthotel am Römerturm, St. Apern-Str. 32, 50667 Köln

Registration is free like every year!

**for registration and rooms:
please send an email to claudia.mueller_@uk-koeln.de**

The meeting is an activity within the DZIF (www.dzif.de/), translational research unit for infectious diseases and the EU-sponsored project EUCARE, coordinated by EUResist (www.euresist.org) as well as an activity of the German-Austrian working group on antiviral resistance (www.hiv-grade.de).

This meeting aims at diagnostics and therapy optimization for HIV, HBV, HCV, TB and on SARS-CoV-2.

We are thankful that the SARS-CoV-2 pandemic is currently in a status that allows us to meet in person again. The valuable face-to-face discussions improve exchange of knowledge and opinion.

As in the previous years you have the opportunity to bring cases with you and discuss the interpretation of the possible resistance in the workshop with the other participants.

Online participation in the Hybrid-Meeting will be possible via Zoom.

The language of the meeting is English.
